

XML ECG to FDA Converter (available in English only)

Click on a blue button to select a file

This software is provided as-is, without any express or implied warranty. In no event shall Philips Medical Systems be held liable for any damages arising from the use of this software.

The **XML ECG to FDA Converter** application converts a Philips **ECG XML** file into an **HL7 version 3 annotated ECG** format, corresponding to the **December 2003 HL7** ballot of the annotated schema, **PORT_MT020001.xsd**. This format has been adopted by the **United States Food and Drug Administration (FDA)** for use in the digital submittal of **ECGs** as part of a drug clinical trial submission.

This application is compatible with **XML ECGs** generated by the Philips **PageWriter Trim** and **PageWriterTouch** cardiographs, and the Philips **Intellivue Bedside Monitor and Information System** (with 12-lead capability), or with **XML ECGs** exported by the Philips **TraceMasterVue ECG Management System**.

The **XML ECG to FDA Converter** application operates with **Microsoft XML Core Services (MSXML 4.0 library)** version 4.0 or higher. Click the button below for more information.

The **FDA** output files can be viewed using **FDA viewer shareware** available at:
<http://www.amps-llc.com>

Click to read the program documentation as a **Readme.txt** file

Click to run the **setup.exe** installer

Click to read the program documentation for the **Microsoft MSXML 4.0 Service Pack 2** program
